This is insightful & entertaining for fans of the genre & curious Metalheads. Bill doesn't seem as humorous as usual but gets in a few funny moments, while shedding light on some things that inspired these bands into this pagan renaissance, which has some similarities to the primitive black metal aesthetic, & thus a distinction' is explored. • **'ZOMBIES OF THE STRATOSPHERE'** (Cheezy) – 12 episodes (+ trailer) of the 1952 B&W Sci fi classic. An early prototype that surely influenced similar shows that followed. • **TV SMITH & THE BORED TEENAGERS 'Perform Crossing The Red Sea With The Adverts Live At The 100 Club'** (WDF) – Long title, eh? '16 tracks of British new wave that has stood the test of time reasonably well.

• **D.O.A. 'THE MEN OF ACTION'** (MVD) – In celebration of their 30th Anniversary, this package includes the Northern Avenger CD & a DVD with 26 videos from the bands history. This Canadian punk band remains a distinctive personality in the legacy of punk. The DVD has a commentary option, where Joe Shithead Keithley takes us through the bands history & little known facts behind each video, which go as far back as 1978, on the first few songs ("D.O.A.", "Disco Sucks."), some cool video work, done in the early MTV-renegade style & who the fuck ever knew all these existed anyway? *Wow!* The CD is catchy fist pumping punk rock that they're known for.

Next, is a 4-song demo from 1982, when Harley was 16; 2 songs on this demo were later done by The Cro flags, he plays all instruments on the demo. Then 15 live songs from his last set at CBGB's; capturing the NYHC element. Classics include "Signs Of The Times" Malfunntion", "Days Of Confusion", & "We Gotta Know." The DVD includes a 21 song set from the same show, (with the all star line-up), & footage from Germany & Japan; on all 3 you can *feel* the energy between stage & crowd as Harley's songs are a true representation of hardcore honesty, with some metal elements in terms of having 2 guitarists who play solos, etc. & covering his history with some Cro flags standards. This set goes hand in hand with Harley's new book; *Life 'Of My Own*, NYHC-OG. Extras include Harley at CB's, talking about his history there (which for him, began in 1974 at the age of 8), a video for "Hardcore", an interview & slideshow.
