[\*I Am Virgin\*](#)

IMD Films

Spooing Will Smith's *I Am Legend*, we get the last "normal" guy on earth – a virgin, of course — facing horny, mostly female vampires. A virus has turned everyone in the world into sex-maniac vamps, you see. Porn icon Ron Jeremy appears in this romp too, as an old-coot sex-and-blood-sucker, all for laughs. Shot in Portland, Oregon, mostly with local actors, crew and so on, this indie flick knows it's being silly, which makes it more fun to watch as lightweight yet playful parody.
