*"One lonely man, six billion sex-crazed vampires.
Be careful what you wish for!"*

--THE PLOT

Parodying 'I Am Legend', a global outbreak has turned all but one of the surviving human race into vampires. Vampires with an insatiable thirst for sex. As the last remaining virgin, and in turn uninfected, Robby must pave a way to true love whilst resists the lures of the

erotically charged and lust ridden vampires that await him on his journey.

A rather week plot point, however this style of plot lends itself well to parody. Unfortunately, the plot rarely excels within itself and lends itself more to setting the scene for the various sex scenes presented in which Robby takes an almost voyeuristic stance towards.

Major points for the inclusion of Ron Jeremy though, I've always found him amusing and he doesn't drop the ball here either playing an aged and somewhat dishevelled vampire. Unfortunately his appearance in the film is relatively short. Hopefully the sequel, 'Stripperland' will have a much greater presence from him.

--VIDEO

The video quality is actually pretty damn good in my opinion, I watched this on a CRT television, and it still seemed as if I was at home watching it on high-def.

The only reason for the lack of two stars in my rating is that some of the camera work is annoyingly typical of the soft core porn genre, which is alright . . . just a bit boring. Along side this, is that some scenes are too dark. Which I admit is a plus when I don't want my neighbour to know I'm watching vampires bump uglies with each other . . . but I'd still prefer to actually see the 'action' proper.

--AUDIO

The audio of the feature gains a few stars for its quality. But loses some for its genericism, and although clear for the most part, there are times that it sounds rather disjointed and separated from the action itself.

Although there are some interesting music choices that you will either love or hate depending on your tendencies.

--EXTRAS

The commentary track is more interesting than expected, and the behind the scenes featurette does add more light to the subject. Unfortunately if you don't like the film you may not appreciate these features for what they are.

The selected IMD trailers are quite enticing too for anyone who cares to check them out, you may be quite surprised with what you get.

--FINAL THOUGHTS

I know I'm being more generous than some of the others who I have seen review this. Maybe that's because their reviews lowered my expectations, although I think I'm just a bit less picky (though some who had read other reviews of mine may disagree). Sadly, despite my praise of some features of this film, they don't do enough to add to the experience of watching it and in turn do even less to make it more enjoyable.

Previous problems with the film not withstanding, a major drawback with 'I Am Virgin' is that it never really settles down and decides what it wants to be. It appears as if the intention was to meld a comedic spoof with a soft core porn video. Not exactly an idea I am opposed

spoof with a soft core porn video. Not exactly an idea I am opposed to, but the execution here fails. Instead of two genres coming together (no pun intended), we are left with two half boiled eggs pretending to be an omelette. When the jokes hit the nail, it's alright, but the failed jokes amidst the half a dozen or so sex scenes its hard to look at the screen and still feel some form of dignity.

I believe if this film had been made as either a soft core porn, or a spoof comedy it would have hit the spot a lot better than this combination. But credit where credit is due, not many would have dared to do so, and even though I am rating this film relatively lowly I

would still be interested in checking out the sequel 'Stripperland'.
