**“Vanilla Fudge: When Two Worlds Collide”** – I remember listening to Vanilla Fudge as a kid, so I thought this DVD of one of their live shows might (at the very least) spark some nostalgia in me. Sadly, it didn’t even do that. Maybe it’s because only two original members remain (Tim Bogert and Carmine Appice), or maybe it’s because watching a bunch of sixty-something retirees jam together will never sound the same as it did coming out of my dad’s old stereo. I guess for my parents’ generation this might be one to pick up, but you can probably pass on it if you were born after 1970.
