

Iggy Pop

Lust for Life

Documentary

★★★

Someday, we hope, somebody will make a definitive doc on punk pioneer Pop. Until that day, we'll live with efforts such as this 40-minute Dutch TV profile from 1986. It's got decent live footage from the era, along with an informative interview with Iggy and the usual archival clips. But best of all, it's got lengthy interviews with recently deceased Stooges guitarist Ron Asheton.
