

SEPTEMBER BAND OF THE MONTH: PREDATOR

By Lissy MacMillan and You

ize that there is a great multitude of aspiring bands out there so we know to do a great job with the songs and recording. After all, what we leave for you will be out there for good. We

certainly do not want to leave a bad impression. The truth is, our inspiration is for our fans. Without you, we are nothing.

Scott (I love hot sauce) asked: Name an instrument you wish you knew how to play.

Dannien: I wish I could play the violin better than I do. I play many instruments but I wish I sounded better on the violin. I practice guitar about 4 to 6 hours a day and after that I have so

many responsibilities that it leaves me with no time to devote to the violin. It just requires so much time to practice other instruments. Primarily, I am a guitar player.

Finally DJ Vulgar asked a very good question: Do you get much airplay or not?

Dannien: We have gotten some airplay in France, Germany, Colombia, and a little bit in the States. We have gained a lot of popularity without any TV, big Radio, or any magazine support. We owe it all to the fans who believe in us and know good metal when they hear it. Trust me when I say we will NEVER disappoint any of you with a bad album. Many US

magazines have refused to even give us the time of day because we don't have the huge budget to advertise with them. We are for the people anyway.

I have also heard rumors and whispers of a tour, so I had to ask: Will you be touring soon, and if so where do you plan on going?

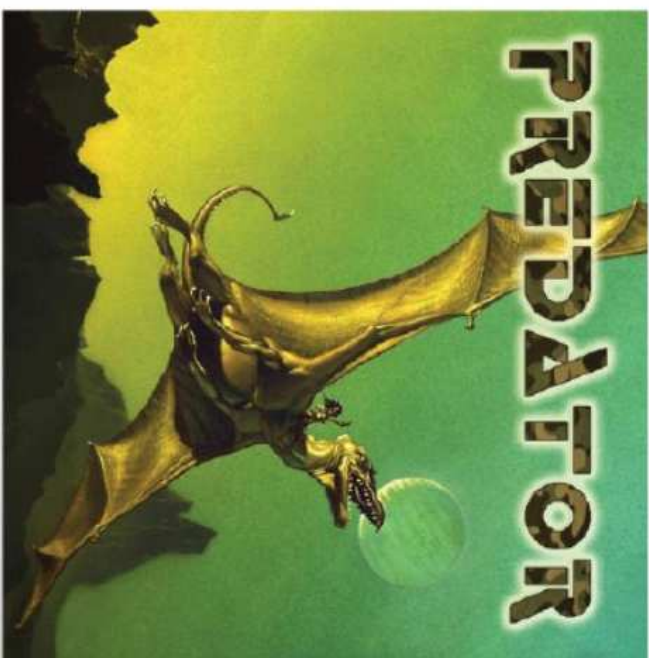

Dannien: We have been talking with some agencies about doing

some performances. We have nothing confirmed at the moment but when we do, there will be some announcements on our web pages.

Here are some other interesting things to know about the members of Predator:

Chris is currently working on wedding plans (sorry girls!) He also works on muscle cars and rides dirt

www.myspace.com/predator-heavymetal

bikes, then in between all of that is practicing his guitar!

Nestor is dedicated to his studies.

Dan is raising two teens as a proud single father. You have to admire that!!

Scott, like Chris enjoys his cars and motorcycles. He is also a science fiction fan, and loves Star Wars!

Dannien owns a music store/ music academy in Ft Lauderdale. As well as reading and playing the guitar, he loves going to the beach at the crack of dawn as he feels like he's the only remaining human on earth.

Predator had just been featured in our last issue of Inclination. We-bizine so we decided to do things a little differently this time around.

It wasn't us that asked the questions, it was the fans. They had the opportunity to ask anything they wanted. Dannien was around to answer them for everyone:

Quinn Dobbins wants to know: When are you coming out with another album?

Dannien: Very likely in 2010. We already have the songs written.

We are currently in pre-production and we start recording shortly after that.

Dannien: We are all very hard-working perfectionists. We real-
