3The Factory were a punk informed rock group from the

4Washington D.C. area that existed from the late 80's until the early  
 590's. Fronted by singer Vance Bockis (The Obsessed, Pentagram),

The Factory were a force in the D.C. club scene that turned a lot of heads in the music industry. However, the band never realized their full potential, having been torn asunder by drugs and ego in 1992.

Up until recently, the recorded works of The Factory had been lost to the oblivion. After what was most likely an arduous search and recover mission, the people at Acetate Records unearthed the 20 year old masters and decided to release them. The result is a brand new record featuring 10 tracks of the late band's work.

Now, I would be lying to you if I told you that this kind of music is my preferred cup of tea. That being said, I did enjoy this record for what it is. Production notwithstanding, this is a very solid collection of gritty, snotty, bluesy, dirty, R&B tinged rock and roll. The songs are catchy and upbeat, but not in a bubblegum kind of way. The best way I could describe it would be the sonic equivalent of an all night coke party with Lou Reed.

If you are into offbeat rock and roll from the New York Dolls school, or a fan of "Some Girls" era Rolling Stones, you'll probably enjoy this. If you are a fan of modern day "garage-rock" this will probably be up your alley as well. If for some reason the world starts being fair, maybe The Factory will get some of the attention they deserved 20 years ago.

With a song called "Puerto Rican Streetfight" how could this band not be awesome?
