The self-proclaimed "greatest rock 'n' roll band in the world" went silent on the recording front for some five years, replaced a founding guitarist, and added another drummer to the Spinal Tap-like revolving door of beat keepers.

If they weren't the Supersuckers, it might have

been a problem.

As it turns out, the hiatus and upheaval ended up inspiring the group's best effort in years "Get The Hell."

The title track has the unmistakable Eddie Spaghetti snarl and delves into what sounds like the lamentable state of rock 'n' roll. "Something About You" and "Pushin' Around" are instant Supersuckers classics, combining the country-punk twang and rock swagger that garnered the band's initial acclaim in the mid-90s.

It wouldn't be a Supersuckers record without plenty of tongue-in-cheek moments including gorging on steak and beer ("Gluttonous") and literally commanding "shut it" on "Shut Your Face" for nearly two solid minutes.

"Rock On," a Gary Glitter cover, is an appropriate album closer, bringing "Get The Hell" to a swinging and over-the-top rocking close.

With "Get The Hell," the Supersuckers show they're not about to relent the "greatest" tag anytime soon.
