## Supersuckers & I Love Rich

By Bob Suehs

SUPERSUCKERS

"Get The Hell"

Hot Damn! The Supersuckers are back with a brand f\*\*kin' new record and you better believe this bitch rocks!

The Supersuckers are road worn in regard to their non-stop touring ethic but the bands last studio effort was released just around 5 years ago which makes their latest release well over due. On their latest rock-fest entitled "Get The Hell" they churn out solid rock anthem that offer up great music for a night of drinkin' & debauchery!

The disc starts with a cool little live intro that leads into the title track of the record which stays on key and tempo for the duration of the record. This is a full throttle rock release which is nothing more than riffs & attitude coupled with quirky lyrics about sex, drugs & rock n roll.

"F\*ck Up" is the song that will catch your attention because it's an anthem for the every man and essentially every song on this record is what I'd consider working class rock n roll ala AC/DC because this isn't p@ssy emo rock or drop-D nu-metal; the songs on this record are 100% legit, down n' dirty, and real!

There are no duds, every song is solid, and The Supersuckers do what they do best on this record...they rock like f\*\*k!
