SUPERSUCKERS "Get the Hell" (Review In French) + Tour Dates Europe

SUPERSUCKERS "Get The Hell" (Steamhammer / SPV)

Release Dates Europe: January 27th, 2014

After some delays, five years have passed since the last effort finally released the album SUPERSUCKERS in January, what a milestone marking the beginning of the year 2014, as the group's reputation more than justified to ensure that each album as well as on stage

SUPERSUCKERS issue here ninth studio album very well done, both by its furiously pieces fit inside that return to the roots of Punk Rock that more than appreciated by his peers and the public with Lemmy combo, and at the same time between each punch which include the supersonic "Get The Hell," the inevitable "Pushin 'Thru", "Fuck Up" and "Shut Your Face". Rock the roots and anthemic chorus always conducted while intensity pieces are inserted to allow her breath back a little (but is it possible with Supersuckers and missiles? :) including the very leading to "Bein 'Bad", the anthemic "High Tonight" on bass emphasized, "That's What You Get for Thinkin ", funky and unique supercharged recovery: "Rock On" by Gary Glitter. Note that of DEPECHE MODE "Never Let Me Down Again" is interesting

Cleverly composed and performed with guts, "Get the Hell" is one of the best album of the group, definitely. Especially the sound, mixing the leading DWARVES, Blag Dahlia and Andy Carpenter, recording in Austin (TX) in the famous Willie Nelson Arlyn Studio, everything fits to this "Get The Hell", a gem of Rock and Punk Rock roots furiously, anthemic at once!

Hoarse voice mister Eddie Spaghetti works wonders, its low as the drums without neighborhoods Captain Von Streicher, you make the heart beat faster as well as the duo rythmiques guitars and riffs attack Dan "Thunder" Bolton - Metal Marty Chandler: effective, efficient, super effective, this "Get The Hell"! Steamhammer / SPV who come to sign for Europe, have nose :)

After his collaboration on the last great album of his buddies NASHVILLE PUSSY "Up The Dose" (review here), Eddie Spaghetti returns with his band and what's good!
