### The Suspicious Death of a Minor

The Suspicious Death of a Minor - Special Edition, 2-Disc Special Edition (Arrow Video Blu-ray). In the wake of the success of Dario Argento's ground-breaking giallo The Bird with the Crystal Plumage, numerous other directors stepped forward to try their hand at these lurid murder-mysteries. At the forefront was Sergio Martino (Torso), whose sensual 70s thrillers starring Edwige Fenech and George Hilton are widely celebrated as some of the best the genre has to offer. The final of Martino's six gialli, The Suspicious Death of a Minor combines conventional giallo trappings with elements of the then flourishing poliziotteschi crime thrillers. Claudio Cassinelli (What Have They Done to Your Daughters?) stars as undercover cop Paolo Germi, on the trail of a Milanese criminal outfit following the brutal murder of an underage prostitute. But a killer-for-hire is also on the prowl, bumping off witnesses before they have a chance to talk...!!! Also starring Mel Ferrer (Nightmare City), Barbara Magnolfi (Suspiria) and Jenny Tamburi (The Psychic), and featuring a script by veteran giallo writer Ernesto Gastaldi (Death Walks at Midnight), this unique and lesser-known entry in Martino's filmography serves as an essential link between two different movements in Italian popular cinema. The Blu-ray comes with an abundance of EXTRAS, so check the Special Edition for content!

### A Fish Called Wanda

Here is another classic saved from the vaults of lost cinema, A Fish Called Wanda Special Edition (Arrow Video Blu-ray) Combine the talents of John Cleese and Jamie Lee Curtis and add director Charles Crichton and you have another Comical Masterpiece! In 1988, John Cleese, former Python and the mastermind behind Fawlty Towers, teamed up with the veteran Ealing Comedy director Charles Crichton (The Lavender Hill Mob) to produce another classic of British comedy. Cleese plays Archie Leach, a weak-willed barrister who finds himself embroiled with a quartet of ill-matched jewel burglars that happen to be two American con artists played by Jamie Lee Curtis and Kevin Kline, Michael Palin's animal-loving hitman and London gangster Tom Georgeson when Georgeson is arrested. Only he and Palin know the whereabouts of the diamonds, prompting plenty of farce and in-fighting as well as some embarrassing nudity and the unfortunate demise of some innocent pooches!!! Nominated for three Academy Awards and winning one for Kline's outstanding supporting turn as the psychopathic Otto, A Fish Called Wanda has stood the test of time, earning its rightful place among its creators remarkable comedy pedigree.
