After taking in the boy, she searches for clues to his identity, and discovers local folklore about a malevolent life-draining spirit that comes in the form of a child: The Tatterdemalion. The haunting film also introduces remarkable Landon Edwards. DVD BONUS FEATURES: Behind the Scenes and Interviews with cast and crew.

Rock & Roll Hall of Fame

Rock the beat, the boat, the boot with Rock & Roll Hall of Fame In Concert: Encore (Time/Life Blu-ray). Each year, the Rock & Roll Hall of Fame honors rock music's pioneering figures during a prestigious black-tie ceremony. As the Hall of Fame enters its third decade, it's these singular induction ceremonies-featuring the biggest names in classic rock from the '60s, '70s and '80s-that have become nearly as epic as the artists they celebrate. This 2 Blu-ray Disc set features poignant reunions, moving and often hilarious induction speeches, and 44 iconic performances. Among the highlights from the 2010, 2011, 2012, and 2013 induction ceremonies: The legendary Canadian power trio Rush performing fiery classics Tom Sawyer and The Spirit of Radio for their fervent fans. Next: Red Hot Chili Peppers leading a searing all-star jam session of Higher Ground anchored by Slash and Ron Wood. Other highlights: Heart going Crazy on You before being joined onstage by fellow members of Seattle rock royalty from Pearl Jam and Alice in Chains. Yes, it is actually Alice Cooper ripping into ferocious versions of Eighteen and Under My Wheels before closing the set with Rob Zombie on School's Out. Wait, there is more music jams like The Hurdy Gurdy Man Donovan, who by the way, is joined onstage by John Mellencamp for a chilling performance of Season of the Witch. The 2-Disc Set includes a Program Booklet featuring the complete Hall of Fame induction speeches, including: Don Henley inducting Randy Newman, and Neil Young inducting Tom Waits! This collection would make a terrific gift for concert fans!

Watch the Sky

Yes, look above your head for *Watch the Sky* (Breaking Glass Pictures DVD). This is a nice little picture with an unknown cast and good cinematography. In an effort to capture amateur video of outer space, two young brothers unexpectedly find themselves in harm's way when an innocent science experiment becomes a day filled with unearthly events threatening their sleepy coastal town. DVD Special Feature: behind-the-scenes imagery.

The Baby

Disturbing to watch but has merit as the real horror is in the last reel and watch Ruth Roman give a chilling performance as a "Mommy Dearest" type in the re-furbished 1973 Classic *The Baby* (Arrow Blu-Ray). Still traumatized by the loss of her husband, well-meaning social worker Ann Gentry (Anjanette Comer, *The Loved One*) throws herself into her latest assignment: the case of Baby, a 21-year-old man with the mind of an infant who crawls, cries and has yet to make it out of nappies. But Baby's family the tyrannical Mama Wadsworth (Ruth Roman, *Strangers on a Train*) and her two demented daughters aren't the only ones with a warped conception of familial relations, and the full horror only begins when Ann sets her sights on liberating the drooling man-child... and in so doing unleashes the wrath of the Wadsworth women. The twist ending will make your jaw drop to the floor! The restoration is in pristine condition and full of bright, clear colors too. Watch the Extras for more in-depth perception about this bizarre film! 45 years after its original release, this film remains one of the most inexplicable horror movies ever committed to celluloid. Directed by Ted Post (*Beneath the Planet of the Apes*, *Magnum Force*) and co-starring Marianna Hill (*Blood Beach*, *Messiah of Evil*), *The Baby* is a twisted, psychedelic nightmare of suburban depravity. EXTRAS: Reversible sleeve featuring newly commissioned artwork by The Twins of Evil and FIRST PRESSING ONLY: Collector's booklet featuring new writing by Kat Ellinger.

The Birth, Death and Rebirth of Circle of Dust

The untold story of the essential, gene-defying '90s industrial project: *Circle of Dust - Full Circle: Birth Death & Rebirth of Circle of Dust* (A MVD Exclusive First Documentary DVD). This amazing 2-Disc Set explores the early career of visionary artist, composer, musician and producer Klayton, who would later gain recognition for his category transcending project *Celldweller*. Assembled from over 30 interviews and dozens of hours of VHS footage from Klayton's personal archive, get access to never-before-released videos & stories on the history of *Circle of Dust*! Descend into the history of COD, spanning over two decades, examining each album, starting with the debut Self-Titled album (1992/1995), *Brainchild* (1992/1994), *Metamorphosis* remix album (1993) and *Disengage* (1998), and culminating with *Machines of Our Disgrace* (2016). The DVD includes a neat booklet and over 2.5 hours of bonus footage! Plus a Mini-Documentary, *Making the Music and Six Lync Videos*! This is powerful stuff and a must for music collections.

Horrors of Malformed Man

A film that cannot be explained but only viewed as weird but beautiful is *Horrors of Malformed Men* (Arrow Blu-Ray Collector's Edition). Cult director Teruo Ishii (*Shogun's Joy of Torture*, *Blind Woman's Curse*) presents a nightmarish, hallucinogenic tale drawn from the fevered imagination of Japan's celebrated pioneer ofero-guro (erotic grotesque) literature, Edogawa Rampo. Medical student Hirotsuke Hitomi slips out of the asylum in which he has been wrongfully confined and stealthily assumes the identity of a recently deceased nobleman with whom he bears an uncanny resemblance. Hirotsuke eases his way into the nobleman's household and his dead double's marital bed. But as long-repressed memories begin to bubble to the surface, he soon finds himself drawn to a remote isle where he is confronted by a mad scientist and his malformed men, and discovers the key that will unlock some long-suppressed mysteries of his own. A dark labyrinth of the monstrous and perverse that fuses mystery and horror while incorporating motifs from a myriad of Rampo's tales, *Horrors of Malformed Men* boasts astonishing carnivalesque art design and haunting performances. Withdrawn from cinemas by its own studio after its original scandalous release nearly fifty years ago, the film is among the very best screen interpretations of the author's macabre brand of horror-fantasy fiction, and a unique oddity of Japanese cult cinema. A 1969 re-furbished Masterpiece with a Collector's Booklet.
