Lee "Scratch" Perry is a dub reggae legend. (narnackrecords.com / August 10, 2012)

Reggae/dub legend Lee "Scratch" Perry is back with a new album that finds him exploring the overlapping worlds of lounge-dub and deep trance styles. At least that's what a press release about his new album "Master Mind," says.

To my ears, today's free track, "Soul Man (Reprise)" sounds more like jazzy soul with some trippy reggae-flavored vocals. Call it whatever you like, it won't detract from your listening experience. I promise.

The track comes courtesy of the Rolling Stone website. Download it from the link below:

For more on Mr. Perry, see this [Brooklyn Vegan blog post](#), or read the following press release about his new album.

Master Piece is the new full-length album from renowned dub-reggae pioneer, Lee "Scratch" Perry, with some songs first introduced in 2010 on a ground-breaking EP in their "unfinished" state. Produced by Born Free and The Next Room, the album features ten tracks employing some of the techniques of the Mad Professor but with a distinctly original, updated sound with elements of lounge-dub and deep trance.

"...Perry shows himself to be a true doctor of the soul, whose music is meant to heal and give hope to the spiritually lost.... And by some force, it seems as though Perry is in a constant state of inspiration... It seems clear that to Perry music and poetry is an expression as well as an affirmation of the divine." - Adrian Pocobelli, The Population.com

For the uninitiated, **Lee "Scratch" Perry** is one of the most important figures in the history of reggae music. Not only did he help develop the early reggae sound captured in a number of important recordings, but as an engineer, producer, songwriter, and performer he pioneered a number of innovations, including dub reggae.
