

MIDWEST RECORD

Volume 35/Number 287

August 3, 2012

THE RAREST ROCKABILLY ALBUM IN THE WORLD Volume 2/Various: Whether northern soul, rockabilly or whatever, the goal is to be too hip for the room when creating super cool compilations. Anybody can fashion themselves a hipster but coming through with the obscure gems that make you stop and go 'god damn' is no easy task. This bunch has come through again with 50 more tracks even the more hard core rockabilly rebel probably never heard the bulk of. Direct from the tail end of the 50s, this 2 hours of romping, stomping fun is a killer good time. It's a real gasser, daddio.
