**Both Ends of the Rainbow DVD**  
Track Listing:  
**Rating: 5 Stars!**

If you're familiar with this series of documentary style dvd's, then you'll know that the previous chapters covered the earlier pieces of Bob Dylan's career & this dvd basically brings you up to the current era of Bob's career. I had no idea that Dylan used Mark Knopfler from Dire Straits on his later records, & that Dylan converted religions & basically lost his core audience when he started to record music that was essentially religious based material! There's alot o' great archival footage of Dylan in this dvd, you get to see some cool interviews with people in the know about this part of his career, & I can't stress enough, this is a really comprehensive documentary on the later works of Bob Dylan...it's got alot of stuff on it that I never even knew about the man!
