DVD: SWEET *Glitz, Blitz, And Hitz*

MVD

Rating: 10 Out Of 10 - Reviewed by Bam-Bam

It's great to see one of my favorite bands of all times getting the recognition they deserve here on this awesome and historical DVD! I had no idea the band even had videos of them playing the hits, let alone some of the pre-Sweet stuff with other members. You get to hear about all the writing of the hits and inner band dirt from guitarist Andy Scott, songwriter Nicki Chinn, and producer Phil Wainright, which is really a first hand look at everything to do with the band. I found this to be one of the highpoints of the DVD because so much has not been written or said about this brilliant band and to hear it right from the source is such a great bonus. The DVD is filled with early videos of the band playing on Top Of The Pops (a British TV show much like American Bandstands) while commentary is being delivered by Chinn, Scott, and Wainright. Interviews with the trio also sprinkle the DVD with very interesting facts and figures that make one think about just how influential the band really was during the early 70's and still is today. The highs and lows are all included along with a cool discography and individual band bios for those like myself who really want the inside scoop. I found this to be one of the most entertaining and informative releases I've seen since the **Pink**

**Floyd** *Dark Side Of The Moon* documentary. Worth every bit of the \$19.95 you'll pay for this at WWW.MUSICVIDEODISTRIBUTORS.COM and probably even more to fans like myself. Very Highly Recommended!!!
