Devo "Live in the Land of the Rising Sun" (MVD)

By [Abel Folgar](#)

Tuesday, Feb 01, 5:38 PM

Solid and with guaranteed re-playability.

This DVD is a must for any fan of the groundbreaking art-punk outfit. If you're looking for the psychobabble, it is all here. And it goes down in Japan 25 years ago, a sea of crazy, chanting, fists in the air Japanese who sing along to

The quality of the recording is excellent, with both sound and visual clarity. It's not now-and-then but solely due to stage lighting. Devo puts on a solid performance ("Satisfaction"), as well as other hot tunes like "Jocko Homo," "That

An added bonus is the inclusion of a Target Video clip of them performing that song in the Japanese set. And what are there, like a billion people. For fans, there's no denying that.

Cool extras include Devo interacting in Tokyo and a few interviews with the band (and two lounging, slightly overweight pugs, really). Another cool extra is a Polysics. Solid DVD, Devo is always enjoyable, so mark this one for guaranteed re-playability.

Oh, and Devo talking about sushi? That's the spud's sweet center.
