SAMHAIN

Live 1984: Stardust Ballroom Hollywood, CA
MVD

Somewhere between the Misfits and creation of the band name Danzig, Glenn had a little band called Samhain. It is apparent that Glenn Danzig at the time of this show had not yet reached the legendary status that he can claim today. I was surprised at the lack of crowd at this show, but that's their loss right? Right on. Samhain delivered a pretty powerful performance on this Hollywood night at the Stardust Ballroom back in 1984 and we are lucky enough to have had someone with a camera taping this show. This is how I remember punk shows from when I was a kid. Not a lot of people in attendance, a dingy little club, but a powerful performance despite the obstacles. This 15 song/45 minute performance showcases a talent that is often forgotten about when you speak of legends. The set focuses on their "Intium" album featuring 9 tracks from that album. What a great performance and well worth adding to your collection if you want to see what the scene was like before Warped Tour and all that shit. (JK)
