BAD BRAINS - Live at CBGBs 1982 DVD ([Music Video Distributors](#)) Look, *Spin* and *Rolling Stone* already covered this, so I really don't want to, but damn it... it is Bad Brains. Where would my cred go if I didn't mention this release? Filmed over three different shows in NYC's historical-though-now-closed CBGB's in 1982. Go get this cuz it rules for the old school!
