LOOK AT THE

This DVD has been out for a while now and if you haven't seen it you just plain suck. Here's a blurb written about the DVD that I pulled:

"This breathtaking performance displays why Bad Brains became one of the most important bands in the history of American Hardcore. On Christmas Eve 1982, Bad Brains began their three-day stint at a Hardcore Festival hosted by legendary CBGB. This DVD represents the very best of these shows, culled from over 4 hours of footage. Their live performances were legendary and their visual recordings were impossible to find. Now, for the first time on DVD, that powerful performance is revisited in extraordinary fashion."

Couldn't have said it better myself.

Why even bother with the "American Hardcore" documentary when you can just

watch Bad Brains?

Here's a clip of the first song on the DVD. The folks over at MVD (the place responsible for this fine release) were kind enough to let us give you a taste of this amazing DVD knowing that you'd be a fool not to go and buy it after you watched this. That or you have really horrible taste in music.
