### **Bad Brains Look Back, Enjoy Present**

Bad Brains is looking forward to a big week. The reunited lineup will play three nights (Oct. 9-11) at New York's CBGB's as the venue prepares to shutter its doors. The timing couldn't be better as Music Video Distributors just released the band's classic 1982 performance at the historic club on DVD. The set comes with interviews from 1982 and the best moments from their 3-night stand. Also included is the bonus audio track, "I And I Survive." Look for "Bad Brains Live At CBGB's 1982" in stores now.
