Lydia Lunch: Videos '78-'06

If there were ever an artist overdue for a comprehensive video collection, Ms. Lunch would be it. Strange, then, that this kick-ass retrospect doesn't actually feature too many 'videos' of the traditional variety. Instead, we are treated to a barrage of live footage stretching as far back as her *Teenage Jesus and the Jerks* years. Some of the film stock quality fares better than others; still, production values notwithstanding, Lydia's seductive howls during her *Shotgun Wedding* years are worth the price alone. **JT**
