## Lydia Lunch Video Hysterie: 1978-2006

An iconic figure in the underground music scene as well as a poet, writer and photographer, this collection of videos follows Lydia from the early days back in 1978 through current times. Gritty film work and dark lighting emphasize the somber lyrical message of the singer.

The collection starts with an apocalyptic video matching the song word for image. Vivid in both video and audio the opening leaves the viewer feeling abandoned and forlorn. Next we have a collection of video filmed in small concert venues, with Lydia given full control of the direction of the nights her poignant style is evident in the music, lyrics and attitude the band gives.

As time goes on we see the progression and focus of Lydia become more evident though her style never seems to change. True to her thoughts, self and audience, Lydia maintains her dark expressive message accompanied by her sharp distinct voice. In a time of commercialism and making a fast buck, Lydia Lunch stays her course and fights for the ideals she believes in and recognizes the message is mightier than the dollar.

Lydia Lunch is known in the BDSM community for both her writing, modeling and acting.

Lydia Lunch's website can be found [here](#). To get this exclusive DVD you have to go [here](#).
