When the indie, tongue-in-cheek guide. Never confuse the Soft Boys (late '70s weirdo-pop) with the Soft Machine (late '60s weirdo-psych) again! (Out 4/19)

STAR WARS REPUBLIC
CLONE WARS (LucasArts, Xbox, PS2, PC, TV) Clone troopers killing in this first-person shooter—but don't worry: they have much more personality than the mindless drones seen in *Star Wars Episode II*. As squad leader, Anakin Skywalker makes way more use of his lightsaber than the Force as he cuts your way through a series of military campaigns, none more impressive than the one that takes you from the Wookiee world of Kashyyyk.
