

TOXIC FLYER ZINE

WORKHORSE III (S/T) CD

A bad ass band featuring some of Phila's punk all stars from bands like... LIME CELL, BAD LUCK 13 RE, and ect. Well WORKHORSE III just kick out some punk rock terror with just a killer fury of a sound that's full of fire. But this 3 pieces band sound have the same fire and fight as bands like... MC5, THE STOOGES, TEXAS TERRI, CHICKEN HAWKS, THE 440'S, and other bands that keep punk on the wild side, with just an out of control sound that's missing in punk today. Just wish this band would play some shows south of Phila once in awhile. (EX+)
