DVD Review: Out The Gate

Posted on [December 4, 2012](#) by [Jan](#)

It all started when a young boy in Jamaica has this dream to go to America and make it big as a musician. Little does he know though that when one follows his dreams, who you know could get you to the top but it can also get you shot as well.

This gritty action-drama follows a gullible, aspiring musician from Jamaica, Everton (E Dee) Dennis when he leaves his home to make it big in the music business in America. Everything is not a bed of roses in Hollywood, but with struggles and perseverance he finds love and success, only to have it all threatened when the Don of LA (Paul Campbell) starts to demand more than he can deliver.

I found the trailer below was very informative about what you can expect in this movie so why don't you take a look and judge for yourself. The street date for it to go on sale is December 11, 2012, but you can click on the Amazon link above and pre-order a copy.
