

Ear Candy (July 11, 2007)

**Deep Roots Music: Revival/Ranking Sounds**

*Screen Edge/MVD Visual*

*DVD*

Deep Roots Music is a fascinating look at the history of Jamaican music. The documentary explores the roots of the music; starting with the music of African slaves through the development of ska, the rock steady movement and finally reggae. The footage of the Skatalites and a young Jimmy Cliff is priceless.
