Many cult DVD collectors probably remember Elite Entertainment who delivered tons of genre films in the early part of the last decade. Well, they are returning with a brand new Blu-ray edition of cult sci-fi film, *The Deadly Spawn*. This wasn't one I expected to see on Blu-ray, but who arguing? Here are the details, specs, and cover art for that film and the producer's 2008 film, *Hell on Earth*.

### THE DEADLY SPAWN

Two campers in the New Jersey woods have their outdoor fun interrupted by the arrival of a meteorite crashing nearby. They go to investigate the crater, but are suddenly attacked and devoured by alien parasites who have hitched a ride to Earth. After finishing off the campers, the hungry space monsters head for a nearby town, where they make their domain in the basement of an old house and soon begin polishing off one hapless inhabitant after another. Four young teenagers, plus one pre-teen boy, try to find a way to stop the angry space monsters before they reproduce and literally eat humanity.

### Bonus Materials:

- Commentary, still gallery, casting footage, gag reel, theatrical trailer & TV spot, enhanced opening scene, television review footage and more!

### HELL ON EARTH

Seventeen year old Bobby, walks with the help of metal leg braces and lives with his nasty parents and repulsive sister, Peggy. He plays with "imaginary friends" provided by the mysterious and ancient "Apocryphal Book of Tarkuhm" provided by his eccentric and somewhat crazy Aunt Sadie. What he does not know is that the monsters and demons are only biding their time until the planets are aligned and they can get him to read the passage freeing their master from the "Hell" of another universe.

Both films are due on shelves January 24, 2012.
