[DgtlMonkey – The land of dirty beats and bananas](#)

Filed Under ([Uncategorized](#)) by Anthony Franklin on 20-06-2010

Yhea new talent grows!

[DgtlMonkey](#) proposes an electronic-inspired French touch ([Justice](#), [Mr oizo](#), [Daft Punk](#)) contaminated by sounds and atmospheres that range from rock, funk and classical. The sessions are live performances of digital DJing rich mash up of famous pieces with track's distorted and violent. After several publications of their own songs and two remixes of [Radiohead](#) bootlegs and Panther on my web space and other circuits, with excellent reviews and comments, it's time the first album "[The land of dirty beats and bananas](#)" was produced and edited by [Fu-nch](#).

I leave here a remix ,if you want to download the album klik [here](#):
