Rise Up Black Man

Rating: ★★★★★

Two college grads have achieved that final hurdle that usually says that you are ready to take on the world. Gary is a young white male who lives for the moment. His interests don't usually include the future. He loves to drink and party which will eventually lead to him becoming an alcoholic. Will is a young black man who has also just graduated from college. He will take a different path. He has a future that will lead him to a higher calling. Will meets up with a charismatic minister. His only problem is that the minister is only out for himself and literally feeds off other black people.

Will has to face his conscience and see what he has become. He had high ideas but at what costs. Gary on the other hand hides from his future through the haze of a bottle. These

two friends eventually wake up and smell the roses so to speak. Problem is just because you may realize what the problem is you still have to get to that point where you can do something about it.

This inspirational film looks at friendship, **alcoholism**, racism, and simply put, life. There is so much that a person has to deal with once you put all that education to use.

KJ Productions is bringing this inspirational story to us on DVD September 23, 2014. The DVD itself is of the finest quality. The visual and sound are exquisite. This is one of those films that you need for your personal DVD library. This film is definitely one that is worth seeing especially at this time. So many times people need to see something on film to get an idea as to what is happening in their own lives. So by all means take the time and get **'Rise Up Black Man'**.
