Two Thousand Maniacs

Here's another jaw-dropping film that MVD video should send to New Orleans. Mayor Cantrell and the Kennedy Foundation who funded the Eight Million to remove our beloved Civil War Monuments! After shocking and outraging the world with his genre-defining 1963 gore-fest Blood Feast, exploitation pioneer H.G. Lewis would seek (and positively succeed!) to outdo himself with the deliciously depraved Two Thousand Maniacs - Released in 1965 and received four out of five stars! (Arrow Video Blu-ray/MVD)! When a group of Yankee tourists take a detour and wind up in the small Southern town of Pleasant Valley, which has magically rematerialized 100 years after its destruction during the Civil War; they find themselves welcomed by the eager townsfolk as guests of honor at their centennial celebrations. Little do the Northerners know that the festivities are set to include torture, death and dismemberment...! Yes, the South shall rise again! This 60's movie really shows us a glimpse of America as a perforation in time, which is pretty much all it really does. As the film goes, it has more hovels than you can count. Special Edition Contents: High Definition Blu-ray (1080p) presentation, Original Uncompressed PCM Mono Audio, English subtitles for the deaf and hard of hearing, Bonus Feature! 1964's Moonshine Mountain, Introductions to the films by H.G. Friedman featuring interviews with H.G. Lewis, filmmakers Fred Olen Ray and Tim Sullivan and editor Bob Murawski, Herschell's Art of Advertising H.G. Lewis shares his expert opinion on the art of selling movies, Two Thousand Maniacs! Outtakes, Trailers, Reversible sleeve featuring original and newly-commissioned artwork by The Twins of Evil, Also including H.G. Lewis fist fightin', hooch-swillin' epic Moonshine Mountain as a bonus feature, this is one double-dose of hicksploitation truly worthy of an almighty Yeehah!
