THE ABYSS/The Other Side/Summon the Beast (Metal Mind Productions) This is a 2 on 1 re-release that originally came out in 1995 and 1996. Both releases deliver some crushing black metal. The Other Side has a bit more of a black/death style and the Summon the Beast is more all out fast pounding black metal and the vocals are more black metal on the 2nd release as well. Some of you might not know that this band was the side project/band from the members of the band Hypocrisy. The production is good on both and I actually prefer the 2nd release as it has a bit more raw sound, the vocals are more black metal and it is an all out blaze attack that I crave. Cheers to Metal Mind for putting it out as a 2 on 1 and not as 2 separate Cds as well. If you missed this back then, pick this up cause it is worth hearing. Info:
