Lee 'Scratch' Perry Completes New Album

'Revelation' due shortly

Release Posted by Robin Murray Mon, 26/07/2010

Jamaican music legend Lee 'Scratch' Perry has confirmed details of his new album 'Revelation'.

Lee 'Scratch' Perry is one of the most important producers of all time. Working in his famous Black Ark studio in Jamaica, the legendary sonic wizard invented dub music, pioneering now

commonplace studio techniques.

Later burning down the Black Ark, Perry moved to England where he worked with The Clash. Later marrying a member of the Swiss royal family, the producer continues to make inventive yet bewildering music.

With his career now lasting more than 50 years, Lee 'Scratch' Perry has completed his latest album. The third in a series recorded with British musicians, the producer teams up with Steve Marshall.

The new album follows on from 'The End of an American Dream' and 'Scratch Came, Scratch Saw, Scratch Conquered'. Due for release next month via MVD Audio, 'Revelation' is a Biblical affair.

Amongst the confirmed song titles are 'Psalm', 'Book Of Moses' and 'Holy Angels'. A hugely respected producer, Lee 'Scratch' Perry has coaxed some famous guest performers for the album, including Keith Richards and P-Funk legend George Clinton.

ClashMusic previously interviewed Lee 'Scratch' Perry. Recalling his beginnings on the Jamaican soundsystem scene, the producer revealed why he burned down the Black Ark and how he predicted the Credit Crunch.
