MSG
Hardrock Legends Volume 2 DVD
Track Listing:

Rating: 6 stars!

Captured back in 1981, this concert video shows a young Michael Schenker ripping through then new songs as well as a few chosen UFO numbers.

Schenker is a guitar god & this concert features the man tearing it up solo after solo & his guitar tone is clear as a bell in some spots & crunchy & distorted in others...I can see where Dave Mustaine from Megadeth was a huge fan of Schenker's too when I watch this dvd.

Cozey Powell plays drums on this dvd & I think this is one of the best MSG performances I have ever seen...the band's on fire!
