### [Alien 2 on Earth](#) [Midnight Legacy Collection](#)

Release Date 4/5/11

**Synopsis:** *Uncut, English language, 1.85 widescreen release of the 1980 Italian Horror/Sci-Fi film directed by Ciro Ippolito (Sam Cromwell). Starring Belinda Mayne, Mark Bodin, Roberto Barrese, Michele Soavi and Judy Perrin. A group of cave explorers are confronted in an underground cavern by a mysterious living rock. Little do they know that it bears home to deadly, flesh-eating creatures, intent on wiping out the entire human population. Can they survive and ultimately prevent Earth's total annihilation? Never released in the United States, only a handful of countries saw a cropped and edited VHS release nearly thirty years ago, that is until now. For our inaugural release, Midnight Legacy is proud to present the first-ever widescreen release of Alien 2 On Earth. The definitive version, transferred from the original 35mm negative, which runs longer than any other version seen throughout the world. The presentation that finally represents the intended vision of Alien 2 On Earth.*

This movie is very fun!

## Giveaway – Alien 2 on Earth DVD – En...

It felt like I was taking a step back in time to 1980. The film style and quality is obviously very different than the movies that are made now. This actually adds to the charm of this movie giving it the feel of the scary movies I liked when I was younger. My teens enjoyed it, too.

The trailer below will give you a taste of this classic horror movie. The trailer has subtitles, but you can watch the dvd in english without subtitles.

Alien 2 on Earth is a fun scare!
