ACID DRINKERS/Striptease (Metal Mind Productions) This is the 3rd and final re-release from this band. The band continue on this to play old school thrash metal with speed and plenty of riffs that kept my neck busy for the 3rd and final time. The band just rip through 15 tunes with that killer guitar crunch that they get and the singer wails and spits out the lyrics. All 3 discs are well worth getting if you don't have them and this band put out 3 great discs and devil horns for Metal Mind for putting these puppies back out on CD. Info:
