The Rolling Stones in 1989. Darryl Jones has since replaced Bill Wyman.

'The Rare And Unseen' DVD

By Phyllis Pollack

A collection of rare footage, original rare film and videos of the band, newsreels and photographs from private collections has been assembled by Wienerworld, to be released by MVD Visual, slated for a stateside release on April 20, 2010, and in on January 18, 2010 in the UK. The upcoming disc is titled *Rolling Stones: Rare And Unseen*.

Producers of the film, which was not authorized by the band, say that it has rare footage that will not be found anywhere else, with some of it having been culled from private collections.

Scenes include Mick Jagger on *World in Action* talking at length on responsibility and the law, [Rolling Stones](#) guitarist [Keith Richards](#) at the Berlin Film Festival, and drummer Charlie Watts opening up a bit. Bill Wyman talks tours and life, and the film contains rare footage of Brian Jones 1964. Also on the disc are television reports thought lost and that have now been restored, and other video delights.

The film can be purchased at a special [website](#).

For Rolling Stones fans that constantly seek "bootleg" footage of the band will argue amongst each other as to which segments are harder to find, or have been impossible to find, but all will agree that any footage of the band is worth having.
