"Y'all Come Back Dead Now, Ya Hear?!!"

--THE PLOT

You would think a vampire queen would be safe in Transylvania, but a vampire hunter invades Catherine's castle and kills her minions, so she has to hide and where better to hide than a little redneck town like Backwash?

And what better for a vampire to do but turn the locals into an army of vampire servants. Which might work if they weren't to stupid to know what they've become and go tanning...

This film was shot on a budget that consisted of change dug out of the producer's couch, and it looks it. The cheapness is offset by the fact the director knows how to set up a scene, but it's still obvious this was shot on a shoestring budget.

--AUDIO

You can hear everything clearly enough, but given how awful the dialogue is, that's not really a good thing.

--EXTRAS

There's a better than usual selection of extras for a low budget release like this including a commentary, making of featurette, blooper reel, (some are funnier than the actual movie), some photos and a collection of trailers.

The commentary is pretty good but the rest of the extras are average at best.

--FINAL THOUGHTS

Originally released in 2004 as [Bloodsucking Redneck Vampires](#) this attempt at comedy unfortunately concentrates so much on the redneck jokes it keeps forgetting its supposed to be a vampire film. When the comic highlight of a vampire movie is a strip poker game between a midget and a 600lb woman with an eye patch you know the film makers have lost the plot in a major way.

So if you're expecting a vampire comedy, (or anything that could be called funny for that matter), you're going to be disappointed. This is basically a gross out redneck comedy with the occasional vampire joke and the even more occasional funny joke. Considering the number of low budget gurus involved with this film, somebody should have noticed the script wasn't even close to funny.

Granted Felicia Pandolfi looks great and there's a fair amount of skin on display but even that can't compensate for the lousy script, horrible effects and overall lack of redeeming qualities. Maybe if they had actual made a movie about vampires....
