Gross Movie Reviews #202

By Tim Gross

Last Breath (DVD) – A cool and creepy independent thriller that the story revolves a couple named Michael and Tina. Michael and Tina’s lives are about to not matter when they go to check out Michael’s new warehouse he just bought as a dark unknown figure puts them through a series of tests to see if they are worthy of seeing their son again? This is a thinking person’s film and a good one at that as I give it 3 stars and can found at www.lastbreaththemovie.com .

Death Ship (DVD-R) – A haunted ship takes out George Kennedy’s ship as he is on his last voyage before handing the captain’s duties over to the only man ‘Rambo’ trusts, “Richard Crenna”. Floating on a raft the few survivors make their way onto this scary haunted German ship that runs on blood and needs many to die in order for it to keep on course! Not the greatest horror flick but this 1980 flick would be perfect double feature with “Shock Waves” if it was ever to be released on DVD? I give it 2 stars.

Night of the Living Dead ‘Reanimated’ (DVD) – Watch the 1968 classic that started it all in all new different way? A way never been done before? A way that makes watching the film again for the first time... “NOTLD-Reanimated” is a totally crazy and different idea that worked beautifully and “NOTLD” fans will crave for! The original audio track is played over pieces of work (film, art work, puppets, etc.) from over 100 artists and animators from around the world. The project is amazing, beautiful, and very fucking cool to see... I give it 4 stars as this project should be celebrated like the original. The DVD has a couple hours of extras and can be found at www.wildeyereleasing.com .

Jennifer’s Body (DVD) – The very yummy Megan Fox stars as Jennifer who just happens to get possessed by a succubus or something, honestly... I was busy staring at her boobs... but anyway. A whinny ass band that sounds like most of the shit played on the radio these days decide to try and sacrifice Jennifer to Satan in hopes of being one of the biggest bands ever! Meanwhile, Jennifer’s ‘nerdy’ girlfriend is trying to figure out what is wrong with Jennifer before she devours everyone in the town of ‘Devil’s Kettle’. The movie is corny as hell but worthwhile horror movie that deserves a better fate than it had at the theaters.

Vacancy 2: The First Cut (DVD) – The prequel to the Kate Beckinsale and Luke Wilson 2007 film about the 21 century motel ‘peeping tom’. This film supposedly takes place in 2004 when the first tapes were believed to be made. Three friends on their way to North Carolina find the motel to sleep

for a few hours only to be starring in the new snuff film for masses. It's one of those horror films that make you wonder did the first film really need a prequel or a sequel. I give it 2 stars.

Sharktopus (DVD/SyFy Channel) – Half shark! Half octopus! And the Roger and Julie Corman produced film stars Eric Roberts... It's fuckin shitastic!!! I give it 3 stars as you need to witness this mess!

- **Zombie Death Town is available at Drivethrurpg.com!**

Zombie Death Town is a solo role playing game in the vein of the Fighting Fantasy and Lone Wolf books from the 80's. In it you take the role of possibly the last survivor of a zombie outbreak from the day before in Anytown, USA. As with all zombie outbreaks, it started slowly with one incident then quickly spread throughout the town. Not taking any chances with the horrors going on outside, you locked yourself in the basement to wait the nightmare out. With great haste you board up your basement window and barricade the door. You huddle in a dark corner, covered with a blanket, and listen to the screams of your neighbors and friends as you fall asleep...
