Daily Dose Pick: Night of the Living Dead: Reanimated

2:04 pm Friday Aug 6, 2010 by [Shana Nys Dambrot](#)

A multi-artist crowdsourced remake of the 1968 zombie classic, *Night of the Living Dead: Reanimated* proves that art has the power to raise the undead.

Beloved for its DIY production design and allegorical power, the original *Night of the Living Dead* was ready-made for interdisciplinary inspiration. *NOTLD: Reanimated* invited 150 artists to illustrate their favorite scenes, with the wildly eclectic results augmented by the full-length original audio. Comprising everything from photography to puppetry to painting, the project honors and builds on the dark humor, independent artistry, and enduring influence of the OG American zombie.

Read a [group interview](#) with the artists behind the film, explore the [official website](#), join the *Night of the Living Dead: Reanimated* [Facebook group](#), and buy a copy of [the DVD](#).
