DVD Update for week of Fri., Sept. 3rd

Susan Granger's DVD/Video Update for week of Friday, Sept. 3:

If you're into conspiracy theories, "Paul McCartney Really Is Dead: The Last Testament of George Harrison" explores a mystery that exploded worldwide in 1969 and was considered a hoax, as Harrison reveals secret Beatles history, indicating that John Lennon was assassinated after he threatened to expose 'Paul McCartney' as an imposter.

Johnny Winter "Live Through the '80s" is an extensive retrospective of the legendary guitarist in live performance during what proved to be an incredibly prolific and successful decade, including archival footage on the tour bus and a rare, candid interview.
