I just watched this film on the 'ol Netflix and I must say it was both frightening and captivating. The story follows two obsessive Tiffany fans. One is a 50 year old dude from Florida who is stricken by aspergers disease, intelligent motherfucker but a total loon.

The second is a Denver hermaphrodite who after some weird event became a fucked up Tiffany fan. Absolutely frightening creature (does a Pauly Shore and Arnold Schwarzenegger impression in the film).

I won't give away too much of the plot but it's really just these two eugenics candidates, talking about their life and obsession with Tiffany. Some really creepy stuff, a little bit of heartfelt stuff, and a lot of outright baffling shit.

for anyone who has netflix I suggest watching it, you will be creeped out but not disappointed. For those without it, I suggest finding a torrent. This is an excellent doc and it needs to be viewed my more hard' pippin' G's like y'all.
