For those of you who saw Johnny Winter at the Georgia BluesFest a couple of weeks ago, and for all the rest of you who have been listening to Johnny Winter for the last 40 years, there's great news: "Johnny Winter: Live Through the 80's" is due to release on September 21, 2010.

According to the press release, "The DVD includes an incredible collection of official archival performance footage from around the world compiled from the original masters."

Andy Aledort of Guitar World called it, "An extensive retrospective of the legendary guitarist in live performance, during what proved to be an incredibly prolific and successful decade" -

Along with the previously released "Johnny Winter Live Through the 70's, this would make the start of a great retrospective collection.

Mark the date: September 21, 2010!
