[Aaah! Zombies!!](#)

Posted on 16 September 2010 by Jason Bayless

Throughout the history of zombie films there are only a few that give birth to a new idea. 2 retweet
 For example, In the 1930's White Zombie was the first to introduce zombies to mainstream cinema viewers. Then several years later in 1968 Romero's Night of the Living Dead gave us todays view of zombies. From then on the zombie genre has pretty much been a cookie cutter format. A group of people trying to survive a horde of mindless killing machines known as Zombies.

No, film has ever ventured out into the realm of Zombie Rights or has ever gave us first hand view of how zombies see the world.....until now!

Let me introduce, [Aaah! Zombies!!](#)

In this hilarious twist on the Classic Zombie Tale, we see the world through Zombie eyes when a barrel full of Toxic Goo transforms four friends in to the Walking Dead, and suddenly, it seems every one else has gone mad. In the most unique Zombie story in years, the Zombies embark on a bumbling quest to find the “Truth”, completely unaware of their rotting undeadness. After all, Zombies are people too.

Here at Zombie Popcorn we just finished watching a screener of Aaah! Zombies!! and we were rolling on the floor with laughter. Seeing the world through zombie eyes is an amazing and hilarious journey. This film has turn the genre back on itself and asked what is it like being a zombie? Have you ever thought about zombie sex?
