KISS Invasion - A Look At The Lost Egyptian God DVD

When I knew I was receiving this DVD, I had hoped that it would contain video I had never seen, but I'm an avid KISS bootleg DVD collector, so my hopes weren't too high, and I was correct, I own everything on this DVD already, but not everyone is as obsessed with KISS as I am, but the DVD is very interesting, as some of you all know, Vinnie Vincent was not in KISS very long, after his stint in KISS, he formed his own band called Vinnie Vincent Invasion, and released 2 albums, but after that, it's almost as if Vinnie had gone into hiding, in the mid 90's he was a guest for for a few KISS conventions, and that is about it. to this day, nobody really knows his whereabouts. so seeing some classic Vinnie Vincent is always nice.

This DVD contains an interview he and KISS did in 1983, on a show called "Night Flight" on the USA channel. this was during the band's "Creatures Of The Night" era. what is interesting on this DVD is that you have the interview, and also the unedited interview, you see the band just sitting there cracking a few jokes, while the filming crew is getting the sound and lighting right. then you have a Q and A with Vinnie during an appearance at a KISS convention in the 90's. and there you have it. it's and independently made DVD, just the basic interviews. but it does show an interesting time in the band's career.
