PHILADELPHIA (CBS) - Our major personality on this week's video review turns 70 this month, his career spanning five decades.

The documentary *Bob Dylan Revealed* offers an intimate biography of the man and his music, starting with the early days with Columbia Records, discussing a number of world tours and his motorcycle accident followed by the famous comeback tour, plus interviews and never-before-seen photos.

The release of the film is being accompanied by a CD of the same name.

Other releases: Ron Howard's *The Dilemma*, plus *The Green Hornet*, and the eighth season of "Penn and Teller," embracing ten episodes.

New versions and/or formats now out also include *Splash*, from 1984, with Tom Hanks playing a guy in love with a mermaid, and *My Own Love Song*, a straight-to-TV drama starring Renee Zellweger and Forrest Whitaker.
