THE MURDER JUNKIES - Road killer: The Murder Junkies are known as being the band that backed the late GG Allin. However they've recently released an album on their own terms which includes Merle Allin (GG's brother) on bass. While it isn't the greatest album in the world it still is a lot of fun and with tracks such as 'Once A Whore', 'Two Dicks In Your Mouth', 'I Hate You' and 'My Little Fuck Doll'. However this twelve track album isn't for the fain hearted and politically correct! If you're into American Punk Rock 'n' Roll then you should give this album a listen as these guys really don't give a fuck. The vocalist reminded me of a raw version of Blaine Cartwright from Nashville Pussy fame and while musically at times it gets a little cliché' in places you can't help but like this album. 'Road Killer' is worth a listen and who knows you might just have a good time with it! **7/10**
