ONE NIGHT ONLY: THE A.I.M.S. GALA (\$19.95; MVD) - This curio of a concert features decent visuals and sounds, as well as some gems -- mainly Elvis Costello and Chrissie Hynde on three songs and a four song set by Chris Rea, then close to the peak of his UK fame; followed by an all-star ramble through some oldies led by Ian Dury, Phil Collins, Eddy Grant and the like. It all happened because Bill Wyman decided to do a talent search. He went to five or so cities with professional recording equipment to record the best bands he could find and then give them copies of the masters to do with what they could. The Royal Albert Hall concert was held to celebrate this, feature the five best bands and raise some money for charity. None of the bands made big waves, but it was a nice effort and the music's not bad. A bonus documentary features the performances of the five bands which were unknown then and remain so now.
