There are some movies I watch that when the credits roll, I think to myself, "Wow clue what I just watched." **He** by Creep Creepersin is one of those movies. So can't tell you for sure what I think the movie is about, but I'm going to give it my b

In **He**, He (Creep Creepersin) is married to his Wife (Ariauna Albright). I'm just goi to them that way throughout since they have no names. No one in the movie h actually, so they're all going to be called by nicknames. He and his Wife obviously serious marriage and mental problems. I'm not sure who is worse, actually. I receive a letter that He reads, it simply says "Proceed." He has no clue what this r passes it to his Wife who says that it says that he got the job with the Compa needs to start immediately. Instead of being happy for him, she is just glad tha got something right. He leaves to go to work, but changes his mind and comes I house. He finds his Wife in a child's room playing with a doll. He has to cut the grass with scissors, so that ea perfect to make her happy. Granted, I have no clue if that is what he was really that is what his mind thinks that he is doing because he's obviously unstable, evei in the film.

When he comes back in the house, there's a random woman sitting in the kitche another language to him. He answers in English, but she never really answers a asks. She sends him to the store to get cigarettes before she'll talk more. I gues
