3The Dwarves have been around since the mid-eighties. They are well known to have offensive

4lyrics and naked ladies with a midget on their album covers. This album is no different.

Musically it is what you would expect from old school pop-punk or garage punk. The riffs are simplistic and played fast. The production is great. It is well mixed and each song has a natural flow into each track. The songs are varied in speed, sound and in some cases different punk genres. They go for straight up punk to pop punk and even a hardcore punk sound.

The track "Looking Out For Number One" sounds like a punk version of an old 50's song. Making it a really cool addition to the record. There are a bunch of sound clips throughout the record that fit perfectly making this feel like really well thought out album. "Do The HeWhoCannotBeNamed" "You'll Never Take Us Alive" and "Your Girl's Mom" are the best tracks on the album.

At just over 30 minutes and 18 tracks every song on this record is really good, there are no duds here. There are few less memorable but they can't all be zingers.

The vocals are perfect for the music. They are always sung clearly making it easy to understand what he is saying. He does have a bit of a gruff voice but when they do a typical pop-punk song he definitely harmonizes well with the music again changing it up.

This is the first time I have actually sat down and listened to the Dwarves. I had heard them numerous times over the past 14 years but never had a desire to actually listen to them. After this record I feel I may have actually been missing out. This album is fun, doesn't take itself seriously and is just a really great punk album.

The album gets released on May 3rd with a deluxe edition that includes a dvd.
